

How Last Mile Solutions **Launched +70 Walmart Locations in 4 Weeks** With a Simpler Delivery Model

The swift, high-volume rollout delivered consistent performance from day one.

CHALLENGE

For Walmart, the goal was to expand delivery across California and Nevada, covering dozens of high-volume stores on a tight timeline with no room for disruption. The challenge wasn't just adding capacity, it was getting up and running quickly without letting service slip.

SOLUTION

Last Mile Solutions worked alongside Walmart's transportation team to support statewide rollout across dozens of store locations. The onboarding process was structured for speed, with clear communication and tight operational alignment, enabling LMS to move from integration to execution in a matter of days.

RESULTS

+70 stores
launched within 4 weeks

~50,000 packages
per week across California and Nevada

99.8% on-time
successful delivery within 2 weeks of launch

0.5% returns
in high-volume markets

"LMS moved quickly, integrated seamlessly, and scaled without disrupting service. Their team operates with urgency, communicates proactively, and focuses on solving problems rather than escalating them."

— Logistics Partner, Walmart Delivery Network
